

ACADEMIC CURRICULUM
FOR
MSc (Yoga Therapy)

Swami Vivekananda Yoga Ansandhana
Samsthana
(Deemed to be University under section 3 of
the UGC act, 1956)
Eknath Bhavan, Gavipurama Circle, K.G.
Nagar, Bendluru-560019

SI. No	Committee Members

SEMESTERWISE THEORY AND PRACTICAL SUBJECTS

Semester-I

Subjects	Subject code	Credits	Tot Hrs	Lecture	Tutorial	Practical	Field Work
Theory subjects							
Yoga Philosophy(Institutional core-IC)	MSTIC-101	03	45	45	0	0	0
Research Methodology(Divisional Elective-DE)	MSTDC-102	04	60	60	0	0	0
Anatomy(Divisional core- (DC)	MSTDC-103	03	45	45	0	0	0
Physiology (DC)	MSTDC-104	03	45	45	0	0	0
Yoga for prevention and promotion of health (DC)	MSTDC-105	03	45	45	0	0	0
Practical subjects							
Yoga practice for Emotion Culturing (DC)	MSPDC-101	02	60	0	0	60	0
Yoga Practice for Personality development (DC)	MSPDC-102	02	60	0	0	60	0
Yoga Practice for prevention and promotion of health (DC)	MSPDC-103	02	60	0	0	60	0
	Total	22	420	240	0	180	0

Semester-II

Subjects	Subject code	Credits	Total Hrs	Lecture	Tutorial	Practical	Field Work
Theory subjects							
Sanskrit Bhasha Vijnanam(IC)	MSTIC-201	03	45	45	0	0	0
Evidence based Yoga Therapy – 1 (DC)	MSTD C-202	03	45	45	0	0	0
Evidence based Yoga Therapy – 2(DC)	MSTD C-203	03	45	45	0	0	0
Yogic Counselling (DE)	MSTD E-204	02	30	30	0	0	0
DE	MSTD E-205	03	45	45	0	0	0
Practical subjects							
Yoga Therapy Techniques - DC	MSPD C-201	02	60	0	0	60	0
Methods of Scientific Writing(DE)	MSPD E-202	02	60	0	30	30	0
Advanced Yoga Techniques - 1(DE)	MSPD E-204	02	60	10	0	50	0
Synopsis(Dissertation)	MSF-205	02	60	0	0	0	60
	Total	22	450	220	30	140	60

Semester-III

Subjects	Subject code	Credits	Total Hrs	Lecture	Tutorial	Practical	Field Work
Arogyadhama Field Training – 1	MSFD C-301	04	120	0	0	0	120
Arogyadhama Field Training – 2	MSFD C-302	04	120	0	0	0	120
Arogyadhama Field Training – 3	MSFD C-303	04	120	0	0	0	120
Arogyadhama Field Training – 4	MSFD C-304	04	120	0	0	0	120
Biostatistics (DE)	MSFD E-305	02	60	0	15	45	0
Dissertation	MSF-306	04	120	0	20	0	100
	Total	22	660	0	35	45	580

Semester-IV

Subjects	Subject code	Credits	Total Hrs	Lecture	Tutorial	Practical	Field Work
Theory subjects							
Patanjali Yoga Sutra(IE)	MSTIE -401	03	45	45	0	0	0
Integrative Medicine Model(IE)	MSTIE -402	03	45	45	0	0	0
Hatha Yoga Pradipika (DE)	MSTDE - 403	04	60	60	0	0	0
Practical subjects							
Yoga way of life (IC)	MSPIC - 401	03	45	10	0	35	0
Dissertation	MSF -402	04	120	20	0	0	100
Classical Yoga (DE)	MSPDE- 403	03	90	0	0	90	0
Advanced Yoga Techniques -2 (DE)	MSPDE- 404	02	60	10	0	50	0
	Total	22	465	190	0	175	100

SEMESTER-I**Subject: Yoga Philosophy****Course Code: MSTIC-101**

Credit: 3	Total number of teaching hours: 45	Full marks for Examination: 100	Internal 50
Number of hours/Week : 3			
Unit – 1 9Hrs 20Marks	Unit – 2 9Hrs 25Marks	Unit – 3 9Hrs 25Marks	Unit – 4 9Hrs 15Marks
Unit-5 9Hrs 15Marks			

Goal and Objectives**Goal:**

The goal of teaching Yoga Philosophy to postgraduate students is to give comprehensive knowledge about therapeutic basis of yoga as mentioned in ancient literature including Vedās, Upanishads, Bhagavadgita and shat darshanas etc.

Objectives**Knowledge:**

After the completion of this subject, students should be able to

- Explain the hidden concepts available in the ancient yogic texts
- Understand the yogic principles of Yoga therapy
- Appreciate the contributions of the Yogis
- Understand the fold of afflictions and means to overcome them

Skill:

After the completion of this subject, students should be able to

- Explain about the contributions of ancient Yogis to the society
- Understand the underlying principles and apply it in therapy
- Make people aware about their Gunās and how does Guna play an important role in the manifestation of a disease
- Explain the essence of Vedas and Upaniñads

Study outcome:

The essence of Vedas and Upanishads will be understood. Will be in a position to appreciate the Yogic way of living. Can adopt that as their life style and will be prepared to teach others the benefits of such lifestyle.

Unit1: Introduction to Vedas and Upanishads:

9 Hours

Pedagogy-Oral talk with Q & A Session.

1. Historical facts about Vedas – 1 hr
 - Dating and Authoring of Vedas
 - Content of Vedas
2. Vedas in brief - 5 hr
 - Jnana Kanda – Prasthanatraya – Upanishads and Vedanta Texts (Taittiriya, Katha, Mandukya, Yoga Vasistha)
 - Karma Kanda - Types of Karma, Performance of Karma, Results of Karma, Theory of Karma
3. Upanishad Prakriyas(10 upanishads teaching techniques) in brief – 2 hr

Unit 2: Yoga Philosophy in Upanishads:

9 Hours

Pedagogy - Oral talk with Q & A Session, PPT, Students may be asked to prepare and enact dramas on the topics such as PanchakoshaViveka, AnandaMimamsa and four wives story, stories of 10 Principle Upanishads.

Main Human quests–8 Hrs

• Who am I (PanchakoshaViveka) –Understanding Consciousness through Indian Philosophy - 4Hrs

• AnandaMimamsa – Happiness Analysis and MeasuringAnanda – 2Hrs

• Energy Model – 2Hrs

8Hrs + Q&A

Unit 3: Yoga Philosophy in Upanishads:

9Hours

Pedagogy- Oral talk with Q & A Session, PPT, Students may be asked to prepare and enact dramas on the topics of related to dharma sandigda

Concept of Dharma – 7 Hrs –

- Literal Meaning of Dharma(2Hrs)
- Nyaya vs Dharma (1Hr)
- Varna and Ashrama Dharma – Social Dharma and Life journey (2Hrs)
- Varna and AshramaDharma – Possible conflicts of Dharma and answers (2Hrs)

7Hr+Q&A+1 Hour Test

Unit 4:Darshnas:

9 Hours

Pedagogy - Oral talk with Q & A Session, PPT.

1. AstikaDarshanas
 - Sankhya, Yoga –1Hr
 - Nyaya, Veiseshika – 1Hr
 - Mimamsa, Vedanta – Yoga Vasista – 4Hrs
 - Narada Bhakti Sutras – 1Hr
2. NastikaDarshanas
 - Charvaka, Jaina, Boudha – 2Hrs

Unit 5: Bhagawadgita:

9 Hours

Pedagogy -Oral talk with Q & A Session, PPT, and Students may be encouraged to give presentation with PPT on Gunas

- Concept of Guna – 3Hrs
- Concept of Yajna – 2Hrs
- Concept of Atma – 2Hrs

7Hrs + Q&A + Test

Reference books

Bhagavadgita

Basis of Yoga - by HRNagendra

PPH Book – SVYASA Publication

Subject: Research methodology

Course code: MSTDC-102

Credit: 4	Total number of teaching hours: 60	Full marks for examination: 100	Internal: 50
No of hours/week: 4			
Examination weightage:			
Unit-1 12Hrs 20 Marks	Unit-2 12Hrs 20Marks	Unit-3 12Hrs 20Marks	Unit-4 12Hrs 20Marks
Unit-5 12Hrs 20 Marks			

Goal and objectives

Goal:

The primary goal of research methodology course is to expose the students to the basic theoretical concepts of conducting scientific research and motivate them to pursue higher research.

Objectives:

- To understand the methodology of research
- To understand relevant statistical concepts
- To apply the above two to design experiments in yoga

Knowledge:

The students will acquire

- Basic understanding of Research methodology
- Knowledge of various statistical procedures
- Knowledge of tools employed to conduct research
- Ability to address the contemporary problems in scientific way

Skills:

- Successfully completing the course, the students will acquire
- Skill to apply the research methodology concepts for practical applications
- Skill to design, conduct and evaluate scientific experiments
- Skill for scientific communication

Study outcome:

After undergoing this course, a student will be having an in-depth knowledge of

- basic concepts of research methodology
- process of research
- designing a scientific study

M.Sc SYLLABUS

- basic statistical concepts
- Specific statistical tests for analysis.

Unit I. Research Methodology Concepts –I

(12 hours)

Pedagogy- Oral talk with Chalk with Q & A Session, PPT: students can be asked to bring two references each for different allotted topics, problem solving and short answer exams may be conducted on Scales of measurements till every ones understanding is clear

- Introduction to research methodology – definition of research, types of research, need for Yoga research
- The research process
- Literature review – Purpose, Process, digital source: PubMed, etc., presentation of literature review
- Ethics of research– Laboratory ethics, Publication ethics, Ethical bodies – IEC & IRB, Guidelines for good clinical practice
- Scales of measurement – nominal, ordinal, interval, ratio

Unit II. Research Methodology Concepts -II

(12 hours)

Pedagogy- Oral talk with Chalk with Q & A Session, PPT: Every two days one short test to test their conceptual understanding to be given : Students may be sent for field work to collect some data to nearby villages and as they come back elaborate explanation about how a sample like this represents the population may be given; students should be given different research papers and asked to identify the sample, population, sampling method used, what is the possible bias, how is it controlled, which are all the different variables.

- Data collection methods: Observation, Interview, psychological tests, questionnaire, physiological tests, and archive
- Sampling methods - Population and Sample; Simple Random Sampling, Systematic Sampling, Stratified Sampling, Cluster Sampling
- Methods of controlling biases - Randomization
- Types of variables – Independent , dependent, confounding variable

Unit III. Research Methodology Concepts -III

(12 hours)

Pedagogy -Oral talk with Chalk with Q & A Session, PPT: Students should be asked to identify the type of design that are used in different research works. Should be made to practice to calculate Validity and reliability etc

- Types of research design – Experimental designs, cross sectional design, Case study, Survey
- Reliability: Test-Retest Reliability, Internal Consistency, Inter rater Reliability
- Validity: Construct Validity, Face Validity, Content Validity, Criterion Validity, Convergent and Discriminant Validity
- Issues of bias and confounding
 - Selection bias, Recall bias, Observer or measurement bias, Publication bias
 - Randomization, Matching, Crossover design, Restriction (or blocking), Stratification, Blinding

Unit IV. Statistical Concepts –I

(12 hours)

Pedagogy - Oral talk with Chalk with Q & A Session, PPT

- Descriptive statistics
- Inferential statistics
- Null Hypothesis Significance Testing: hypothesis and null hypothesis
- Statistics and Parameters
- Sample and Population
- Generalization
- One tailed, two tailed hypothesis
- Types of Errors and its control
- Central Limit Theorem

Unit V. Statistical Concepts - II

(12 hours)

Pedagogy - A work shop need to be conducted where in one day the teacher has to take a simple problem and show them how a synopsis is written to that research problem; Next day all students should be asked to take a simple topic and define the problem and write hypothesis and null hypothesis; next session they should be made to write the literature survey; next session finalizing the sampling methodology, next session finalizing the design, next session data collection.

- Point estimate and interval estimate
- Power analysis: Effect size, sample size
- p-value
- Confidence interval

M.Sc SYLLABUS

- Statistical tests and design
- Assumptions of tests
- Statistical tests for various designs: Correlation, proportions, paired-sample and independent sample t-tests, Chi-Square tests, ANOVA, Repeated Measures ANOVA, parametric and non-parametric tests.

3. Zar, J. H., & Zar. (1999). Biostatistical Analysis. Pearson Education. New Delhi

Subject: Anatomy

Course code: MSTDC-103

Credit: 3	Total number of teaching hours: 45	Full marks for examination: 100	Internal: 50
No of hours/week: 3			
Examination weightage:			
Unit-1 9Hr 20Marks	Unit-2 9Hr 20Marks	Unit-3 9Hr 20Marks	Unit-4 9Hr 20Marks
Unit-5 9Hr 20Marks			

Goal and Objectives

Goal:

It aims at giving inclusive knowledge of the gross structure of human body to provide a basis for enhancing the knowledge of body's structure.

Objectives

Knowledge:

After completion of the program, the students should be able to:

- Understand normal gross structure of the human body and their functions in detail
- Recognize basic structures and their connections with central nervous system,

Skills:

- After completion of the program, the student must be able to:
- Locate and identify body structures including topography of living body
- Conduct experiments designed to study physiological phenomena
- Interpret experimental/investigative data

Study outcome:

Students get familiarized with the structure of the different systems in the human body. Complete knowledge of Human anatomy makes it easier to understand physiology properly and both put together gives a clear picture of what happens when we do yoga? What happens when we get stressed up?

Unit-1: Cell & Muscular-skeletal system

Pedagogy - Oral talk with Chalks with Q & A Session, PPT: video; Students may be taken to lab to show the different bones, joints and their alignment; students may be asked to prepare charts, models to show the mechanism of muscle contraction.

- i. Cell organelles –Mitochondria, Golgi body, ER, Lysosome, Peroxisome, Centrosome
- ii. Plasma membrane, cytoplasm,
- iii. Nucleus-Nuclear membrane, chromosome, nucleolus
- iv. DNA & RNA
- v. Anatomy of the Skeleton
- vi. Classification of bones-Axial bones and appendicular bones
- vii. Types of joint –Synovial joints and Fibrous joint
- viii. Structure of synovial joints
- ix. Types of synovial joints
- x. Types of Muscle in the body (striate, Smooth muscle, Cardiac muscle)
- xi. Mechanism of muscle contraction
- xii. Neuromuscular junction

Unit-2: Cardiovascular & Respiratory system

Pedagogy - Oral talk with Chalk with Q & A Session, PPT: video; students should be made to prepare charts of drawings of different systems.

- i. Anatomy of heart
- ii. Functional anatomy of blood vessels
- iii. Respiratory system of human-Nose, nasal cavity, pharynx,
- iv. trachea,
- v. larynx, bronchiole,
- vi. lungs

Unit-3: Digestive system & Endocrine system

Pedagogy - Oral talk with Chalk with Q & A Session, PPT: video; students should be encouraged to prepare charts depicting the anatomy of different systems.

- i. Digestive system of human-Mouth, buccal cavity, pharynx, oesophagus, stomach, large intestine, small intestine, anus
- ii. Associated glands-Liver, Pancreas, salivary glands, gall bladder
- iii. Structure important of endocrine gland
- iv. Structure of Pituitary
- v. Structure of Adrenal
- vi. Structure of Thyroid & Parathyroid
- vii. Structure of Pancreas

Unit-4: Nervous system & Special senses

Pedagogy - Oral talk with Chalk with Q & A Session, PPT: video; students should be encouraged to prepare charts depicting the anatomy of different systems.

- i. Introduction to nervous system,
- ii. Classification of nerve fibres,
- iii. Cerebellum
- iv. Basal ganglia
- v. Motor cortex
- vi. Limbic system
- vii. Autonomic Nervous system
- viii. Structure of Eye, Receptors & neural functions of retina
- ix. Structural and functions of external, middle and inner ear,
- x. Taste buds, Perception of taste.

Unit 5: Excretory system

Pedagogy - Oral talk with Chalk with Q & A Session, PPT: video; students should be encouraged to prepare charts depicting the anatomy of different systems.

- i. Excretory system of human-Kidney
- ii. Ureter
- iii. urinary bladder,
- iv. urethra
- v. Structure of nephron

Recommended books:

1. Brizlani – Anatomy and Physiology for Nurses
2. Ross and Wilson – Anatomy and Physiology
3. Elanie Nicpon Marieb- Human anatomy and physiology

Reference books:

1. C. C. Chattarjee- Human physiology
2. Choudhary- Medical physiology

Subject: Physiology

Course code: MSTDC-104

Credit: 3	Total number of teaching hours: 45	Full marks for examination: 100	Internal: 50
No of hours/week: 3			
Examination weightage:			
Unit-1 9Hr 20 Marks	Unit-2 9Hr 20Marks	Unit-3 9Hr 20Marks	Unit-4 9Hr 20Marks
Unit-5 9Hr 20Marks			

Goal and Objectives

Goal:

It aims at giving inclusive knowledge of development of human body to provide a basis for enhancing the knowledge of bodily functions.

Objectives

Knowledge:

After completion of the program, the students should be able to:

- Understand normal functions of the human body
- Understand their regulation and integration of various organs.
- Explicate the normal functioning of all the organ systems and their interactions for well-coordinated body functions.
- Explain the physiological aspects of normal growth and development

Skills:

- After completion of the program, the student must be able to
- List physiological principles underlying pathogenesis and disease management.

Study outcome:

Students get familiarized with the functions of the different systems in the human body. Complete knowledge of Human physiology makes it easier to understand a clear picture of what happens when we do yoga? What happens when we get stressed up?

Unit-1: Cell & Tissues

- i. Homeostasis
- ii. Transport across cell membrane
- iii. Cell cycle and its regulation
- iv. Cell differentiation and proliferation
- v. Structure and function of epithelial -simple and compound
- vi. Connective -connective tissue proper, skeletal and vascular
- vii. Muscular -Skeletal, involuntary and cardiac
- viii. Nervous tissues-Myelinated neuron and Non myelinated neuron

Unit-2: Digestive system, Nutrients and their metabolism

Pedagogy -Oral talk with Chalk with Q & A Session, PPT: video; students should be encouraged to prepare working models of different systems like digestive system.

- i. Physical digestion-Mastication, swallowing, peristalsis
- ii. Chemical digestion-Digestion of carbohydrate, protein and lipid
- iii. Absorption of carbohydrate, fats and protein
- iv. Fats
- v. Protein
- vi. Carbohydrates
- vii. Minerals
- viii. Vitamins

Unit-3: Respiratory system &Cardiovascular system

Pedagogy -Oral talk with Chalk with Q & A Session, PPT: video; students should be encouraged to prepare working models of different systems like Respiratory, Cardiovascular etc

- i. Pulmonary ventilation
- ii. Mechanism of breathing(Expiration and inspiration)
- iii. Transport of respiratory gases(transport of oxygen and transport of carbon dioxide)
- iv. Regulation of respiration
- v. Composition and function of blood –Plasma, RBC, WBC and Platelet
- vi. Function of haemoglobin
- vii. Types of WBC
- viii. Blood groups and their importance
- ix. Mechanism of blood clotting
- x. Organisation of systemic and pulmonary circulation
- xi. Cardiac output and cardiac cycle
- xii. Blood pressure and regulation of blood pressure

Unit-4: Endocrine system and Excretory system

Pedagogy- Oral talk with Chalk with Q & A Session, PPT: video; students should be encouraged to prepare working models of different systems like excretory.

- i. Function of important of endocrine gland (Pituitary, Adrenal, Thyroid, Parathyroid, Pancreas)
- ii. Function of GI tract hormones
- iii. Mechanism of hormone action
- iv. Mechanism of urine formation- Ultra-filtration, selective re-absorption, tubular secretion
- v. Micturition

Unit-5: Nervous system &Special senses

Pedagogy: Oral talk with Chalk with Q & A Session, PPT: video; students should be encouraged to prepare working models of different systems like ear, eye etc

- i. Introduction to nervous system,
- ii. Classification of nerve fibres,
- iii. Nerve conduction synaptic transmission,
- iv. Receptors &neural functions of retina,
- v. Colour vision, Visual pathways,
- vi. Auditory pathways
- vii. Primary taste sensations, Taste buds, Perception of taste,
- viii. Peripheral olfactory mechanisms,
- ix. Olfactory pathways, Olfactory perception

Recommended books:

- 1.Brizlani – Anatomy and Physiology for Nurses
- 2.Ross and Wilson – Anatomy and Physiology
- 3.ElanieNicponMarieb- Human anatomy and physiology

Reference books:

- 1.C. C. Chattarjee- Human physiology
- 2.Choudhary- Medical physiology

M.Sc SYLLABUS

Subject: Yoga for prevention and promotion of health

Course code: MSTC-105

Credit: 3	Total number of teaching hours: 45	Full marks for examination: 100	Internal: 50
No of hours/week: 3			
Examination weightage:			
Unit-1 9Hr 20Marks	Unit-2 9Hr 20Marks	Unit-3 9Hr 20Marks	Unit-4 9Hr 20Marks
Unit-5 9Hr 20Marks			

Goal and Objectives

Goal

It aims at giving knowledge about the prevention of health problems by promoting positive health through Yoga practices.

Objectives

Knowledge:

After completion of the program, the students should be able to:

- Understand normal gross structure of the organ/system connected with the specific function and its functions in detail
- Recognize basic structures and their connections with central nervous system, understand their regulation and integration of various organs.
- Explicate the normal functioning of all the organ systems and their interactions for well-coordinated body functions.
- Understand the different disorders due to problems in the system or problems in the functioning of the system.
- To understand the role of Yoga
- To understand which practices of Yoga are good and which need to be avoided in such cases
- To understand the underlying mechanisms of such yoga practices

Skills:

- After completion of the program, the student must be able to:
- Locate and identify body structures including topography of living body
- Conduct experiments designed to study physiological phenomena
- Interpret experimental/investigative data
- To understand the role of Yoga

Subject outcome:

The student will be able to explicate the normal functioning of all the organ systems and their interactions for well-coordinated body functions. Student will be able to understand how to strengthen the different systems using Yoga to prevent health problems and promote health.

Unit -1: Introduction

[9 Hours]

(Talk with PPT: Students should be asked to correlate their experiences of practical to find out how they are improving their stamina and eye sight . Students having sight problems should be encouraged to follow the procedure to correct their refractive error. Students should be encouraged to watch the video made by SVYASA on these topics)

Importance of prevention of health problems and promotion of positive health. Identification of different systems of body to strengthen to prevent personality hazards and to promote positive personality. **[2Hours]**

- **Yoga for Stamina building** **[4Hours]**

Introduction, Body systems in improving physical stamina, Physiology of muscle action, Physical stamina according to yoga, Yoga practices for physical stamina development.

- **Yoga for Eye Sight improvement** **[3Hours]**

Introduction, Structure and function of eye, problems of eye where Yoga can help, Yoga for refractive errors, Eye problems and their yogic solution, Eye sight improvement and the total insight, Yoga practices for eye sight improvement.

Unit – 2:

Pedagogy - Talk with PPT: Students should be asked to correlate their experiences of practical to find out how they are improving their IQ and Voice. Students having IQ/voice problems should be encouraged to follow the procedure and correct. Students should be encouraged to watch the video made by SVYASA on these topics. IQ tests can be performed on the students to get every ones IQ levels which can be matched with that at the end of the semester, Voice recording at the beginning and at the end of the semester can be given to the students.

- **Yoga for IQ Development** **[5Hours]**

Introduction, Intelligence and Intelligence quotient (IQ), Concept of Development of intelligence according to Yoga, Concept of Intelligence quotient and Intelligence according to Yoga, Development of Intelligence, Using intelligence in the right direction for the growth, Yoga practices for IQ development.

- **Yoga for Voice Culture** **[5Hours]**

M.Sc SYLLABUS

Introduction, Anatomy and Physiology of the vocal system, Causes of injury to the vocal system, vocal disorders and voice disorders, Voice culturing, developing musical talents, Voice culture for developing oration, Yoga practices for voice culture.

Unit –3:

Pedagogy -Talk with PPT: Students should be asked to correlate their experiences of practical to find out how they are improving their Relaxation levels and creativity. Students having stress/lacking creativity problems should be encouraged to follow the procedure and correct. Students should be encouraged to watch the video made by SVYASA on these topics. Stress scores can be measured at the beginning and end of the semester.

- Yoga for Stress Management [4Hours]

Introduction, Understanding stress, Physiological changes due to stress, Stress management, Yoga practices for stress management.

- Yoga for Creativity Development [5Hours]

Creativity and intelligence, silence the source of creativity, Creativity development – Yogic approach, Layers of silence and the siddhis, How to use the sidhis? , Yoga practices for creativity development.

Unit – 4:

Pedagogy - Talk with PPT: Students should be asked to correlate their experiences of practical to find out how they are improving their Relaxation levels and creativity. Students having stress/lacking creativity problems should be encouraged to follow the procedure and correct. Students should be encouraged to watch the video made by SVYASA on these topics. Students can be asked to mark their anger levels on an analogue scale at the beginning and end of the semester. Students can be asked to mark their Ego levels on an analogue scale at the beginning and end of the semester.

- Yoga for Anger Management [4Hours]

Introduction, steps in anger management, bodily reactions with anger, Yoga for anger management - a move from limbic brain to cerebral cortex, how yoga works for anger management, Yoga practices for anger management.

- Yoga for Ego and Greed Management [5Hours]

Introduction, psychologists view about ego, Ego according to Yoga, Culturing of ego for building social harmony, the right direction, Yoga practices for Ego and Greed management.

Unit – 5:

Pedagogy - Talk with PPT: Students should be asked to correlate their experiences of practical to find out how they are improving their Relaxation levels and creativity. Students having stress/lacking concentration problems should be encouraged to follow the procedure and correct. Memory and concentration levels of all the students can be measured at the beginning and end of the semester. Students should be encouraged to watch the video made by SVYASA on these topics. Stress scores can be measured at the beginning and end of the semester.

M.Sc SYLLABUS

- Yoga for Memory Development

[5Hours]

What is memory? Which memories to be maintained? Memory development not merely memory enhancement; Antarindriyas; Patanjalis def of smriti (memory), Types of memory,

Improving Good memories, erasing memories about calamities, Problems /diseases related memory

- Yoga for concentration development

[4Hours]

Ekagrata(concentration) Vs Chanchalata (randomness), role of concentration in day to day activity, neural correlates of concentration, problems of concentration, yoga for improvement of concentration and Yoga for removing problems of concentrations.

References:

1. Sampoorna Yoga videos

Subject: Yoga practice for Emotion Culturing

Subject code: MSPDC-101

Credit: 2	Total number of teaching hours: 60	Full marks for examination: 100	Internal: 50
No of hours/week: 4			
Examination weightage:			
Unit-1 12 Hrs 20Marks	Unit-2 12Hrs 20Marks	Unit-3 12Hrs 20Marks	Unit-4 12Hrs 20Marks
Unit-5 12 Hrs 20Marks			

Goal and Objectives

Goal:

The goal of teaching Yoga Therapy techniques to postgraduate students is to provide them with practical knowledge about the techniques used to culture the emotion and thus can be used as a tool for the management of various psychosomatic ailments.

Objectives

Knowledge:

After the completion of this course, the student shall be able to:

- Develop surrendering attitude
- Understand the deeper meaning of each sloka, song and prayer
- Harmonize value system featured by love, co-operation, bliss and health.
- Gain mastery over emotion

Skills:

After the completion of the course, the student shall be able to:

- Recite a sloka, sing a prayer and service related songs
- Explain the deeper meaning and its application
- Convince mankind to develop surrendering attitude towards the supreme power

Study outcome:

Music is enjoyed by the human being since the World is created. We feel relaxed after listening the Music. By singing individually we can come out of the hesitations, so that we can mingle with friends without any hesitation. Self confidence will increase.

As we know, in our brain two parts are there. Left part and The Right Part. The left part of the Brain is connected with intellect. The Right part of the brain is connected with emotions. Nowadays more importance is given to left part of the brain only. When we will sing our right part of the brain will get activated. When both parts of the brains are activated there will be a total personality development.

So we can say that by singing one can become courageous, self confident, Kind hearted and can attain a good personality.

Unit-1: [12Hours]

Pedagogy - Lead and follow method will be followed. Students will be asked to repeat. Everyone will be made to open. Every ones voice will be recorded.

- **Prayers** [4Hours]
 - i. Karägre VasateLakshmi
 - ii. Samudravasane Devé
 - iii. Liëgäñöakam
- **Bhagavad Gita** [4Hours]
 - i. Karma Yogaù
- **Vedic Chantings** [4Hours]
 - i. Ahaà Vâkñasya Rerivä
 - ii. Om Äpyäyantu Mamäëgäni

Unit -2: Bhajans – 1 [12Hours]

Pedagogy - Lead and follow method. Sing – practice- improve.

Guru Stuti [6Hours]

- a. Guru Mahimä
- b. Pä Liye Hamne
- c. Guru hamare
- d. Om Guru Om Guru

Ganesh Bhajan [6Hours]

- a. Mahägaëapate Namostute,
- b. Mätaiga Vadanä
- c. Gaja Vadana
- d. Vinayaka vinayaka
- e. Gowri nandana gajanana

Unit -3: Bhajans -2 [12Hours]

Pedagogy -Lead and follow Students will be encouraged to lead bhajans in common bhajan sessions

Shiva Bhajan [6Hours]

- a. Brahmaparätpara Pürëa
- b. Om Çiva Om Çiva
- c. Shankara shankara
- d. Shambho purare shankara purare
- e. Shiva shankara

Devi Bhajan [6Hours]

- a. Jay Jay Jay Devé Jagadambä
- b. Ambä Çämbhavécandramaulirabalä
- c. Raijané Niraijané Manoraijani
- d. He sharade maa

M.Sc SYLLABUS

- e. Kali maheshwari parwati shankari

Unit -3: Bhajans -3

Pedagogy - Lead and follow. Students will be taken to the nearby village temple for a bhajan sandhya there [12Hours]

Ram Bhajan [6Hours]

- Çréräm Jayaräm Däçaratha He Raghuräm
- Daçarathanandana Räma Räma Jaya Sétäräma
- Gurukripa anjana
- Prema mudita manase kaho

Sri Krishna Bhajan [6Hours]

- Smita Smita Sundara Mukhäravinda Näco Nandalälä
- Radhe radhe radhe radhe
- Gopala gopala re
- Govinda madhava

Unit -4: Spiritual song [12Hours]

Pedagogy - Lead and follow

- Sab Ke Liye Khulä Hai Mandir Haiye Hamärä
- Har des me tu her vesh me tu
- Galat mat kadam utavo
- Bane ham rastra ke yogi

Unit – 5: Patriotic Songs

Pedagogy - lead and follow. Every session beginning in their class's students will be scheduled to lead and others will be asked to follow. [12Hours]

- Nirmäeoà Ke Pävan Yug Meà Ham Caritra Nirmäë Na Bhüle
- Janani janmabhumi swarga se mahan hai
- Chandan hai is des ki mati
- Ham hai suput bharat ke

M.Sc SYLLABUS

Subject: Yoga practice for personality development

Subject code: MSPDC-102

Credit: 2	Total number of teaching hours: 60	Full marks for examination: 100	Internal: 50
No of hours/week: 4			
Examination weightage:			
Unit-1 12Hrs 20Marks	Unit-2 12Hrs 20Marks	Unit-3 12Hrs 20Marks	Unit-4 12Hrs 20Marks
Unit-5 12Hrs 20Marks			

Goal and Objectives

Goal:

The goal of teaching is to personality development to postgraduate students is to provide them with practical knowledge about the techniques used to personality development and thus can be used as a tool for the management of various psychosomatic ailments

Objectives

Knowledge:

After the completion of this course, the student shall be able to:

- Develop good physique
- Understand the importance of the games
- Harmonize value system featured by love, co-operation, bliss and health.
- Gain mastery over physical stamina and reduce ego and develop self confidence

Skills:

After the completion of the course, the student shall be able to:

- Play Yogic games
- Understand about the games
- Convince mankind to develop all round personality development
- To bring love, harmony, peace and bliss.
- To develop group awareness.
- To develop stamina and strength.

Study outcome:

One will strengthen their Anandamaya Kosa. Improve awareness, communication skill, creativity, dexterity, coordination, team spirit, stamina, flexibility, initiative, speed, alertness, IQ and memory.

(Students will be asked to teach PDC children by assigning one group of children for two students and make them play during their games hour)

Unit -1:

(Play tuned to Anandamaya Kosa. After each unit students will be asked to introduce the game to their own classmates)

Awareness Games [6Hours]

Introduction, Kendra says, Bomb blast, Pincho, Raja- Ram-Rawan, Ram-shyam, Om, This is my nose, Man-Gun-Tiger, Brother where are you, complete the figure, chaos Musical Chair.

Coordination Games [3Hours]

Mandal kho, Three legged race, Locking and unlocking, Loka Sangraha, Passing hankey under the leg, Fish scooping

Stamina Games [3Hours]

Frog touch, Elephant touch, Train race, Touching with pairs, Hanuman fight, Om circumlocution

Unit – 2:

Pedagogy - Play tuned to Anandamaya Kosa. Stay in silence at the end of the session. After each unit students will be asked to introduce the game to their own classmates

Dexterity Games [4Hours]

Frog in the well, Loose compartment, Tiger and man, breaking the mud pot, balloon bursting, lion and lamb.

Flexibility Games [3Hours]

Self Help, Salute the Governor, catching the snakes tail, Eagle Race

Initiative Games [3Hours]

I am Shivaji, bull fight, scorpion fight, chariot fight, neck fight, horse fight

Unit 3:

Pedagogy - Play tuned to Anandamaya Kosa. Students will be asked to observe their emotions. Stay in silence. After each unit students will be asked to introduce the game to their own classmates

Emotion Culture Games [2Hours]

Statue, Ha-Ha-Ha, King wants

Muscle Building Games [2Hour]

Tying the handkerchief, Untying the handkerchief

Team Spirit Games [3Hour]

Jayadrathah, tug of war with rope, tug of war without rope

Communication Games: [1Hour]

Dumb shellards

Fun Games: [4Hours]

Illusion, If I were - , Merri go round, Lotus bee

Unit 4:

Pedagogy - Play tuned to Anandamaya Kosa. Students will be asked to observe their emotions. Stay in silence. After each unit students will be asked to introduce the game to their own classmates

Strength Games: [4Hours]

Master-disciple, conquering the fort, angada, breaking the chain, Give me a place, Tug of war with pairs

Speed Games [4Hours]

Touching with pairs, Torch race, Snake and frog, Namaste, kho-kho, Shivaji-Pratap

Alertness Games [4Hours]

Dog and bone, Grouping, stick Lifting, I am going to -

M.Sc SYLLABUS

Unit 5: [12Hours]

Pedagogy - Play tuned to Anandamaya Kosa. Students will be asked to observe their emotions. Stay in silence. After each unit students will be asked to introduce the game to their own classmates

IQ games: [4Hours]

Finding the leader, Finding out Animal/Fruit/ Flower, Identify the historical character, Polarisation, Find the capital, Quiz

Memory Games: [4Hours]

Post man, Comer comer comes- goer goer goes, antyakshari

Creativity Games: [4Hours]

Creativity, instant enacting, story enacting, parcel bomb

Text Book: Krida Yoga by Dattaram Pol Published by Vivekananda Kendra Prakashana Trust

Subject: Yoga for prevention and promotion of health

Course code: MSPC-103

Credit: 2	Total number of teaching hours:60	Full marks for examination: 100	Internal: 50
No of hours/week: 6			
Examination weightage:			
Unit-1 12Hrs 20Marks	Unit-2 12Hrs 20Marks	Unit-3 12Hrs 20Marks	Unit-4 12Hrs 20Marks
Unit-5 12Hrs 20Marks			

Goal and Objectives

Goals:

The goal of teaching Yoga for Prevention and Promotion of health is

Knowledge:

After the completion of the program, the students should be able to

- Independently handle a patient and administer yoga therapy;
- Appreciate the relative contribution of each organ system to the homeostasis;
- Explain the pathological aspects of disease;
- Illustrate the physiological response and adaptations to environmental stresses;
- List physiological principles underlying pathogenesis and disease management.

Skills:

After the completion of the programs, the students should be able to:

- Teach Yoga Therapy;
- Interpret experimental/investigative data;
- Take medical, psychological and yogic assessments
- Effectively treat the patient with various psychosomatic ailments.

Study outcome:

Over all personality development. Experiential knowledge to give Yoga practices for Prevention and Promotion of health.

M.Sc SYLLABUS

Unit 1 :

[12Hours]

Pedagogy - 8 step method. Students will be asked to go to the nearby village school and teach these to the children in the school)

Yoga practices for Stamina Building:

[6Hours]

Sithilikarana Vyayama

- Simple Jogging ---Mukha Dhouti
- Forward jogging
- Backward jogging
- Side Jogging
- Twisting
- Rotation of arms
- Forward & backward bending
- Tiger Stretch
- Pavana Muktasana
- Back stretch
- Side Bending
- Neck Movement

Breathing Practices

- Hands in and out breathing
- Hand stretch Breathing
- Ankle stretch Breathing
- Dog breathing
- Rabbit breathing
- Tiger Stretch
- Tiger Breathing

Shavasana

Surya NAmaskara 12 steps

Surya NAmaskara 10 steps

Asanas

- Ekapadasana
- Utthita hasta padangusthasana
- Merudandasana
- Santolanasana

Kriyas

- Agnisara
- Kapalabhati
- Both nostril
- Alternate Nostril

Pranayama

Surya Anuloma Viloma

Meditation

- Sun
- Hanuman

• **Yoga for Eye sight improvement:**

[6Hours]

Preparatory eye exercises:

Up and Down movements of the eye ball

Right and left

Diagonal (right up-leftdown, Left up- right down)

Asana:

Padahasthasana

Ardhacakrasana

Eye Relaxation Techniques:

Palming – 3 stages of palming

Hand cup palming –hold

Press and release palming – 5 times

Palming with Bhramari – 3 rounds

Cleansing Techniques (Kriyas):

Eye cup Washing – 1

Massaging, tear sac massaging

Blinking, Jalaneti

Washing using the palm

Pranayama:

Relax in QRT – abdominal breathing

Nadi suddhi

Bhramari for head relaxation

Trataka:

Nasagra – (straight finger)- Palming 1

Urdhvamukha – Palming 1

Adhomukha – (horizontal Finger) – Palming 1

Vama Jatru – Palming 1

Dakshina Jatru trataka – Palming 1

Bhrumadhy trataka – (Bent Index Finger) – Palming 1

M.Sc SYLLABUS

Jyothi trataka:

Jyothi Trataka 1 eye at a time – palming 1

Both eyes trataka – three steps

1. Multiple flames – merge them into one flame –concentrate on the sharpness of the margins of the flame
2. Brightest part of the flame – Recognise the gradation in the intensity of the light
3. Wick of the candle
4. Blue centre of the flame
5. Aura of the flame

Antar Dharana Trataka – Imagine jyothi in the centre of the skull focussing the eye ball inside skull

Surya Trataka: Sunraise and sunset – Never look at white light

Moon trataka and star trataka

Dharana on Jyothi and meditation

Relaxed eyes in action – relax the frown on the fore head;

Keep a smile on the face always

Neck muscle relaxation – neck back bending

Action in Relaxation

Interactions in calmness

Unit 2:

[12Hours]

Pedagogy - 8 step method Students will be encouraged to conduct classes for nearby village school children

Yoga Practices for IQ Development

[6Hours]

Loosening Exercises

- Spinal stretch
- Pada Sancalana
- Situps from standing (2 Types)
- Uthita Ardha Sirasasana Breathing
- Butterfly Stretch
- Prasaritha Padahasthasana Stretch

Breathing Exercises

- Baddhakonasana Breathing
- Setubandhasana Breathing
- Navasana breathing
- Eka Padahasthasana breathing
- Prasaritha Padahasthasana breathing

Yogasanas

- Parsava Konasana (both sides)
- Gomukhasana
- Sarvangasana
- Ardha Sirasasana
- Baddhakonasana

M.Sc SYLLABUS

- Parsavavouttanāsana

Kriyas

- Kapāla Bhati (Right Nostril)

Pranayama

- Sūrya Anuloma Viloma

Meditation

Search inside the root of thoughts

- **Yoga Practices for Voice Culture:**

[6Hours]

Asana

- Janusirsāsana
- Prasarita pascimatanāsana
- Vakrasāna
- Ardhamatsyendraāsana
- Matsyasāna
- Prasartia halāsana

Kriya

- Gargling
- Ushāh Pāna
- Jalāneti
- Kapālabhāti alternate nostril,
- Kapālabhāti both nostril
- Vaman Dhouti

Pranayama

- Bhāstrika
- Ujjayi,
- Sitikāri
- Sadanta
- Bhrāmari in shanmukhi mudra
- Bhramara

Breathing Exercises: Tiger stretch

Shakti Vikasaka: Karana Shakti Vikasaka

Relaxation:

- Instant Relaxation Technique (IRT)
- Quick Relaxation Technique (QRT)
- QRT with chanting
- Neck Relaxation with bhrāmari
- Simha mudra

Namavalis: Speech: Intonations

Voice Special Practices:

M.Sc SYLLABUS

- Matching the Voice to 'OM'
- Tongue massage
- Blowing cheeks
- Twisting the lip

Unit 3:

[12Hours]

Pedagogy - 8 step method. Students will be asked to teach the practices they learnt to children in the nearby village school.

Yoga practices for Stress management:

[6Hours]

Step 1: Starting prayer

Step 2(A): Instant Relaxation Technique (IRT)

Step2(B): Linear awareness

Step 3: Centering

Step4: Standing Asana

Ardhakati cakrasana

Step5: Quick Relaxation Technique (QRT)

Phase I - Observing the abdominal movements

Phase II - Associate with breathing

Phase III-Breathing with feeling

Step 6 : Sitting Asanas

Vajrasana

Sashankasana

Ustrasana

Step 7 : Deep Relaxation Technique

Yoga for creativity development

[6Hours]

Loosening Exercises

- Alternate Leg Rising in Standing
- Padasancalana
- Tiger Stretch (Prabheda)
- Baby Walk
- Makarasana Cycling
- Clap Jumping

M.Sc SYLLABUS

Subject : *Sanskrit* Bhasha Vijnanam (IC)

Course Code: MSTIC-201

Credit : 3	Total number of teaching hours: 45	Full marks for Examination: 100	Internal 50
Number of hours/Week : 3			
Unit – 1 5Hrs 10Marks	Unit – 2 13Hrs 30Marks	Unit – 3 12Hrs 30Marks	Unit – 4 6Hrs 10Marks
Unit-5 9Hrs 20Marks			

Goals and Objectives

Goal:

The goal of teaching *Sanskrit* and English to postgraduate students is to provide a comprehensive knowledge of *Sanskrit* and English in order to be able to study, understand, comprehend and utilize the knowledge contained in Indian traditional texts in their professional practice, especially in the field of *Yoga*.

Objectives

Knowledge:

After the completion of the course, the student shall be able to:

- Demonstrate knowledge of complete *Sanskrit* script;
- Describe kinds of nouns, verbs, pronouns, etc. with examples;
- Illustrate kinds of gender, number, and declensions employed in *Sanskrit*;
- Demonstrate skill in pronunciation of different kinds of *Sanskrit* words, phrases and sentences.

Skills:

After the completion of the course, the student shall be able to

- Read and understand *Sanskrit* with respect to script and basic grammar.
- Familiarize themselves with various texts and compositions such as *Madhurashtakam*, *Vaidyakeeyasubhashitasahityam*, etc.
- Speak fluently in *Sanskrit* after having learnt the various peculiar pronunciations.

Study outcome:

Comprehensive knowledge of Samskrtam and English in order to be able to study, understand, comprehend and utilize the knowledge contained in Indian traditional texts in their professional practice, especially in the field of *Yoga* and *Vedanta*. Describe kinds of nouns, verbs, pronouns, etc. with examples; Illustrate kinds of gender, number, and declensions employed in *Sanskrit*, and demonstrate skill in pronunciation of different kinds of *Sanskrit* words, phrases and sentences. The subject of Samskrtam would make students to read and understand *Sanskrit* with respect to script and basic grammar. Speaking fluently in *Sanskrit* after having learnt the various peculiar pronunciations. Study would prepare students to understand Sanskrit verses without anyone's help and to make students capable of converse in simple Sanskrit.

Unit-1: Introduction to Language

[5Hrs]

Pedagogi: (Chalk and talk. Q & A)

i. Introduction to Language and subject

ii. Devanāgarī script - Alphabets, i.e. vowels, consonants, vowels & consonants combination

- iii. Two consonant combinations, special conjunct consonants and their pronunciation associated with their articulation. Formation of writing.
iv. Introduction to *Saṅskṛta* Grammar, Story of *Pāṇini* and his works.
v. Concept of place of Letters & Mechanism of birth of each letter.
vi. Basic rules for recognition of Nouns and Collection of *Saṅskṛta* words in genders.

Unit-2:

[13 Hrs]

Pedagogi: (Chalk and talk; PPT; Q&A, lead and follow repetitions)

- i. Introduction to Genders – Masculine, Feminine and Neuter genders.

M.Sc SYLLABUS

iv. Reading and writing practice with the help of stories and very basic texts in *Saàskåtam*.

Unit- 5: ACTIVE AND PASSIVE VOICE

[9Hrs]

Pedagogi: (Chalk and talk and PPT)

- i. The Two Voices
- ii. Rules regarding Active and Passive Voice
- iii. Change of Voice in Tenses
- iv. Change of Voice in Affirmative, Negative and Interrogative sentences

Recommended Books:

1. Samskrita Bharati published books & Flash cards.
2. Sarala book published by Samskrita Bharati, Bangalore.
3. Sugama book published by Samskrita Bharati, Bangalore.
4. Sukhada book published by Samskrita Bharati, Bangalore.

Subject: Evidence Based Yoga therapy -I

Course code: MSTDC-202

Credit: 3	Total number of teaching hours: 45	Full marks for examination: 100	Internal: 50
No of hours/week: 4			
Examination weightage:			
Unit-1 4Hrs 10Marks	Unit-2 12Hrs 25Marks	Unit-3 12Hrs 25Marks	Unit-4 10Hr 25Marks
Unit-5 7Hrs 15Marks			

Goal and Objectives

Goals:

The goal of teaching Yoga Therapy for Common Ailments to students is aimed at giving the student comprehensive medical knowledge of the disease and it's Yogic Management of the organ systems of the body to facilitate comprehension of the physiological basis of health and disease and Hospital training and hands on training to handle patients.

Knowledge:

After the completion of the program, the students should be able to

- Independently handle a patient and administer yoga therapy;
- Appreciate the relative contribution of each organ system to the homeostasis;
- Explain the pathological aspects of disease;
- Illustrate the physiological response and adaptations to environmental stresses;
- List physiological principles underlying pathogenesis and disease management.

Skills:

After the completion of the programs, the students should be able to:

- Teach Yoga Therapy;
- Interpret experimental/investigative data;
- Take medical, psychological and yogic assessments
- Effectively treat the patient with various psychosomatic ailments.

Study outcome:

All the diseases connected with different systems, students get knowledge of sign, symptoms, prevalence and their pathophysiology, medical management and total rehabilitation with Integrated approach of Yoga therapy.

Unit-1: Introduction to common ailments

[4Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study)

- i. Introduction to stress
- ii. Physiology of stress
- iii. Psychosomatic ailments
- iv. Introduction to Yoga therapy – Adhija Vyadhi concept, IAYT

Unit-2: Respiratory Disorders

[12Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study)

- i. Introduction to Respiratory disorders
 - a. Brief classification – Obstructive, Restrictive, infectious and inflammatory

M.Sc SYLLABUS

- b. Introduction to Pulmonary function tests and their principles
- ii. Bronchial Asthma
 - a. Definition, Pathophysiology, Classification, Clinical Features,
 - b. Medical Management
 - c. Yogic Management
- iii. Allergic Rhinitis & Sinusitis
 - a. Definition, Pathophysiology, Classification, Clinical Features,
 - b. Medical Management
 - c. Yogic Management
- iv. COPD
 - a. Chronic Bronchitis
 - a) Definition, Pathophysiology, Classification, Clinical Features,
 - b) Medical Management
 - c) Yogic Management
 - b. Emphysema
 - a) Definition, Pathophysiology, Classification, Clinical Features,
 - b) Medical Management
 - c) Yogic Management
- v. Infectious Disorders
 - a. Tuberculosis
 - a) Definition, Pathophysiology, Classification, Clinical Features,
 - b) Medical Management
 - c) Yogic Management
 - b. Pneumonia
 - a) Definition, Pathophysiology, Classification, Clinical Features,
 - b) Medical Management
 - c) Yogic Management
 - c. Interstitial Lung Disease / Idiopathic pulmonary fibrosis
 - a) Definition, Pathophysiology, Classification, Clinical Features
 - b) Medical Management
 - c) Yogic Management
 - d. Evidence based Yoga therapy for respiratory disorders

Unit-3: Cardiovascular Disorders

[12Hrs]

Pedagogi:(Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study. Encouraging students to do PPT presentation on the desired topics)

- i. Introduction to Cardiovascular disorders
- ii. Hypertension
 - a. Definition, Pathophysiology, Classification, Clinical Feature
 - b. Medical Management
 - c. Yogic Management
- iii. Atherosclerosis / Coronary artery disease
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- iv. Ischemic Heart disease – Angina pectoris / Myocardial Infarction/ Post CABG rehab
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- v. Congestive Cardiac Failure / Cardiomyopathy
 - a. Definition, Pathophysiology, Classification, Clinical Features

M.Sc SYLLABUS

- b. Medical Management
- c. Yogic Management
- vi. Cardiac asthma
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- vii. Evidence based Yoga therapy for problems of Cardiovascular system

Unit-4:Endocrinal and Metabolic Disorder [10Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study; explaining Arogyadhama stories)

- i. Diabetes Mellitus (I&II)
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- ii. Hypo and Hyper- thyroidism
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- iii. Obesity
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- iv. Metabolic Syndrome
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- v. Evidence based Yoga therapy for Endocrinal and Metabolic disorders

Unit-5:Excretory System [7Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study)

- i. Chronic renal failure
 - a. Causes, clinical features
 - b. Medical management
 - c. Yogic Management
- ii. Renal stones
 - a. Medical management
 - b. Yogic Management
- iii. Irritable bladder
 - a. Medical management
 - b. Yogic Management
- iv. Stress incontinence
 - a. Medical management
 - b. Yogic Management
- v. Evidence based Yoga therapy for problems of excretory system

Recommended books:

1. Yoga for common ailments and IAYT for different diseases –Dr. Nagarathana, Dr. H R Nagendra and Dr. ShamantakamaniNarendran
2. Integrated approach of yoga therapy for positive health-Dr. R Nagaratha, Dr. H R Nagendra

M.Sc SYLLABUS

Reference books:

1. Yoga for common disorders- Swami Koormananda Saraswati

Assignments:

The learners shall prepare an assignment on

- i. Compilation of Evidence base for management of any two pathologies with Yoga as a therapeutic measure
- ii. They shall prepare a power point presentation of a scientific paper suggested by the teaching faculty.

Recommended website:

1. Research publications in Yoga on all concerned topics from peer reviewed journals.

- Explain the pathological aspects of disease;
- Illustrate the physiological response and adaptations to environmental stresses;
- List physiological principles underlying pathogenesis and disease management.

Skills:

After the completion of the programs, the students should be able to:

- Teach Yoga Therapy;
- Interpret experimental/investigative data;
- Take medical, psychological and yogic assessments
- Effectively treat the patient with various psychosomatic ailments.

Study outcome:

All the diseases connected with different systems, students get knowledge of sign, symptoms, prevalence and their pathophysiology, medical management and total rehabilitation with Integrated approach of Yoga therapy

Unit- 1:Obstetrics and Gynaecological Disorders

[7Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study; Narating arogyadhama case studies)

- i. Menstrual disorders: Dysmenorrhea, Oligomenorrhea, Menorrhagia
 - a. Definitions, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- ii. Premenstrual Syndrome
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- iii. Yoga for Pregnancy and Childbirth
 - a. Introduction to pregnancy, Complicated pregnancies: PIH, Gestational DM
 - b. Ante-natal care
 - c. Post-natal care
- iv. Infertility-male and female PCOS
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- v. Evidence based Yoga therapy for Obstetrics and Gynaecological Disorders

Unit-2: Gastro Intestinal Disorders

[8Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study)

- i. APD
 - a. Introduction to APD: Gastritis –Acute & Chronic, Dyspepsia, Peptic Ulcers
 - b. Clinical Features
 - c. Medical Management
 - d. Yogic Management
- ii. Constipation and Diarrhea
 - a. Definition, Pathophysiology, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- iii. Irritable Bowel Syndrome
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- iv. Inflammatory Bowel Disease
- v. Ulcerative colitis
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management
- vi. Crohn's diseases
 - a. Definition, Pathophysiology, Classification, Clinical Features
 - b. Medical Management
 - c. Yogic Management

M.Sc SYLLABUS

vii. Evidence based Yoga therapy for Gastro Intestinal Disorders

Unit-3: Musculo-Skeletal Disorders

[7Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study; Narating arogyadhama case studies)

- i. Back Pain
 - a. Classification of back pain: organic and functional
 - a) Lumbar Spondylosis
 - b) Intervertebral disc prolapse (IVDP)
 - c) Spondylolisthesis
 - d) Spondylitis
 - e) Psychogenic- Lumbago
 - b. Medical Management
 - c. Yogic Management
- ii. Neck pain
 - a. Classification
 - a) Cervical Spondylosis, radulopathy
 - b) Functional neck pain
 - c) Whiplash injury
 - b. Medical Management
 - c. Yogic Management
- iii. All forms of Arthritis
 - a. Rheumatoid Arthritis
 - b. Osteoarthritis
 - c. Psoriatic Arthritis
 - d. Gout
 - e. Medical Management
 - f. Yogic Management
- iv. Muscular dystrophy
 - a. Medical Management
 - b. Yogic Management
- v. Evidence based Yoga therapy for Musculo-Skeletal Disorders

Unit-4: Psychological Disorders

[15Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study; Narating arogyadhama case studies)

(A) Neurological Disorders:

[8Hrs]

- i. Headaches
 - a. Migraine
 - a) Causes, Classification, clinical features
 - b) Medical management
 - c) Yogic Management
 - b. Tension headache
 - a) Medical management
 - b) Yogic Management
- ii. Cerebro vascular accidents
 - a. Causes, clinical features
 - b. Medical management
 - c. Yogic Management
- iii. Epilepsy; pain; Autonomic dysfunctions
 - a. Causes, clinical features
 - b. Medical management

M.Sc SYLLABUS

- c. Yogic Management
- iv. Parkinson's disease
 - a. Causes, clinical features
 - b. Medical management
 - c. Yogic Management
- v. Multiple sclerosis
 - a. Causes, clinical features
 - b. Medical management
 - c. Yogic Management
- vi. Errors of vision of refraction.
 - a. Causes, clinical features
 - b. Medical management
 - c. Yogic Management
- vii. Hearing impairment
 - a. Causes, clinical features
 - b. Medical management
 - c. Yogic Management
- viii. Evidence based Yoga therapy for Neurological Disorders

(B)Psychiatric disorders

[7Hr]

Introduction to psychiatric disorders, classification – Neurosis, Psychosis

- i. Neurosis
 - a. Anxiety disorders
 - a) Generalised anxiety disorder
 - b) Panic Anxiety
 - c) Obsessive Compulsive Disorder
 - d) Post-traumatic stress disorder
 - e) Phobias
 - f) Medical Management
 - g) Yogic Management
 - b. Depression
 - a) Dysthymia
 - b) Major depression
 - c) Medical Management
 - d) Yogic Management
- ii. Psychosis
 - a. Schizophrenia
 - b. Bipolar affective disorder
 - c. Medical Management
 - d. Yogic Management
- iii. Mental retardation
 - a. Autism
 - b. Attention Deficit Hyperactivity Disorders
 - c. Medical Management
 - d. Yogic Management
- iv. Substance abuse – alcohol, tobacco, cannabis abuse
 - a. Medical Management
 - b. Yogic Management
- v. Evidence based Yoga therapy for Psychiatric disorders

Unit-5:Cancer, HIV and Anaemia

[8Hrs]

Pedagogi: (Talk with PPT, Video, Take students to Arogyadhama to see patients of the disorders of study; Narating arogyadhama case studies. Encourage all students to present on research work done on each one of the diseases that they have studied about)

M.Sc SYLLABUS

- i. HIV - AIDS
 - a. Cause, Pathophysiology, Clinical Features
 - b. Medical management
 - c. Yogic Management
- ii. Autoimmune disorders
 - a. Causes, clinical features, various autoimmune disorders
 - b. Medical management
 - c. Yogic Management
- iii. Cancer
 - a. Causes, clinical features,
 - b. Side effects of Chemotherapy, radiotherapy
 - c. Medical management
 - d. Yogic Management
- a. Anemia
 - a. Classification of anemia
 - b. Medical management
 - c. Yogic management
- iv. Evidence based Yoga therapy for Cancer, HIV and Anaemia

Recommended books:

1. Yoga for common ailments and IAYT for different diseases –Dr. Nagarathana, Dr. H R Nagendra and Dr. ShamantakamaniNarendran
2. Integrated approach of yoga therapy for positive health-Dr. R Nagaratha, Dr. H R Nagendra

Reference books:

1. Yoga for common disorders- Swami KoormanandaSaraswati

Assignments:

The learners shall prepare an assignment on

- iii. Compilation of Evidence base for management of any two pathologies with Yoga as a therapeutic measure
- iv. They shall prepare a power point presentation of a scientific paper suggested by the teaching faculty.

Recommended website:

3. Research publications in Yoga on all concerned topics from peer reviewed journals.
4. <http://www.ncbi.nlm.nih.gov/pubmed/>

Credit: 2	Total number of teaching hours: 30	Full marks for Examination: 100	Internal 50
Number of hours/Week : 2			
Unit – 1 7Hr 25Marks	Unit – 2 8Hr 25Marks	Unit – 3 7Hr 25Marks	Unit – 4 8Hr 25Marks

Goal and Objectives

Goals:

The goal of teaching Yogic Counseling to students is to make them get familiarized with the counseling. The do's and don'ts of counseling. To know the importance of counseling in Yoga therapy. To know the technique of counseling.

Knowledge:

After the completion of the program, the students should be able to know what is counseling, how to do it? What is its requirement and importance in Yoga Therapy.

Skills:

After the completion of the programs, the students should be able to:

- Counsel the Yoga Therapy Participant
- Effectively treat the patient with various psychosomatic ailments.

Study outcome:

Student will be thorough with the dos and donts of counseling. He will learn to be empathetic. He will be able to throw the light of yoga and higher goals to the participant so that in light of these one can choose their own ways. The therapy participant he counsils will get rid of the inner turmoil and will find a positive goal for life.

Unit 1 Introduction to Psychology and Cognitive psychology

Pedagogi: (Talk with PPT. Students should present the benefits and limitations of each one of the theories)

Definition of mind according to modern science and yoga; comparative understanding of the process of perception, learning, Intelligence, Creativity, memory and emotions according to modern psychology and yoga psychology; A brief understanding of conventional methods of psychotherapy Existential/Humanistic Therapy; Biological Approaches; Psychodynamic Therapy; Behavioural Therapy; Cognitive Therapy.

Unit 2: Yoga for personality development

Pedagogi: (Talk with PPT.)

Theories of personality - Behavioral Theories; Biological Theories; Psychodynamic Theories; Superego; Psychoticism;;Neuroticism/Emotional Stability;;The Five-Factor Theory of Personality; Humanist Theories; Eysenck's Three Dimensions of Personality; Introversion/Extroversion: yoga for total personality development as research data presentations

Unit 3: Yogic Counselling

Pedagogi: (Talk with PPT.)

Role of Shuddhi Prakriyas in treatment of illnesses , prevention and promotion of positive Health; concepts of Karma Shuddhi (Yama, Niyama), Ghata Shuddhi (Shat-karma), Snayu Shuddhi (Asana), Prana Shuddhi (Pranayama), Indriya and Mano Shuddhi (Pratyahara), Chitta Shuddhi (Dharana, Dhyana and Samadhi)

Unit 4: Principles and techniques of counselling

Pedagogi: (Talk with PPT. Each student will be made to attend at least one counselling session with a senior counsellor. Latter Q&A with the counsellor)

Qualities of a counselor; Principles of what to speak, how to listen, speak , how to behave, expressions during counseling; what not do while counseling

Role of catharsis as understood by modern psychology and counseling ; Yogic understanding of recognizable and unrecognizable stresses as karma, samskaras ; methods recommended for cleansing (chitta shuddhi) in healing,

M.Sc SYLLABUS

Yoga techniques to be used during counselling to cope with hyper sensitive mind, excessive speed of mind, problems of perfectionist personality, hereditary and congenital problems, psychological conflicts, calamities/ life events (present, past , concerns about future distressing events), ageing etc

Reference books:

Subject: Divisional Elective:

Subject: Yoga therapy Techniques

Subject code: MSPC-201

Credit: 2	Total number of teaching hours: 60	Full marks for examination: 100	Internal: 50
No of hours/week: 4			
Examination weightage:			
Unit-1 12Hrs 20Marks	Unit-2 12Hrs 20Marks	Unit-3 12Hrs 20Marks	Unit-4 12Hrs 20Marks
Unit-1 12Hrs 20Marks			

Goal and Objectives

Goal:

The goal of teaching Yoga Therapy techniques to postgraduate students is to provide them with comprehensive knowledge of therapeutic techniques applicable for various ailments.

Objectives

Knowledge:

After the completion of this course, the student shall be able to:

- Demonstrate each technique prescribed for a disease
- Say the working principles behind the techniques prescribed for various diseases
- Understand contraindications and indications of *yogic* practices in order to efficiently use *Yoga* as a therapy;
- Explain the precautions to be taken before practicing the special techniques

Skills:

After the completion of the course, the student shall be able to:

- Prescribe the set of special techniques to manage various diseases
- Demonstrate usage of therapeutic aspect of *Yoga* in promotive, preventive, and curative therapy.
- Find another alternative practice if the practice is not found to be effective.

Study outcome:

Students know with experience which practice should be given to which disease and what should be avoided. In case of a combination of diseases, what should be given and what should be avoided.

M.Sc SYLLABUS

Unit-1: [12 hours]

Pedagogi: (8 step method)

Yoga Practices for respiratory disorders

Yoga practices for cardio vascular disorders

Unit-2: [12hours]

Pedagogi: (8 step method; Students should be encouraged to introduce the practice, to teach a session)

Yoga practices for Endocrinal and metabolic disorders

Yoga practices for excretory system disorders

Unit-3: [12 hours]

Pedagogi: (8 step method; Students should be encouraged to introduce the practice, to teach a session)

Yoga practices for obstetrics and gynaecological disorders

Yoga practices for GID

Unit-4: [12 hours]

Pedagogi: (8 step method; Students should be encouraged to introduce the practice, to teach a session)

Yoga practices for Musculo-skeletal disorders

Yoga practices for neurological disorders

Unit-5: [12 hours]

Pedagogi: (8 step method; Students should be encouraged to introduce the practice, to teach a session)

Yoga practices for psychiatric disorders

Yoga practices for Cancer, HIV and Anaemia

Recommended books:

Yoga for common ailments manual, *Swami Vivekananda Yoga Prakashana*, Bangalore, 2002

M.Sc SYLLABUS

Course: Methods of Scientific Writing

Subject Code: MSPDE-202

Credit: 2	Total number of teaching hours: 60	Full marks for Examination: 100	Internal: 50
Number of hours/Week : 4			
Examination Weightage:			
Unit – 1	Unit – 2	Unit – 3	Unit – 4
30Hrs 50Marks	10Hrs 20Marks	10Hrs 15Marks	10Hrs 15Marks

Goal and Objectives

Goal:

The goal of teaching scientific writing course to postgraduate students is to provide them practical knowledge on writing and communicating scientific information of various scientific/research investigations.

Objectives

Knowledge:

The student shall be able to:

- Understand the structure of synopsis
- Understand the structure of dissertation
- Understand the structure of journal article
- Have basic idea on planning and writing the article

Skills:

After the completion of this subject, the students shall be able to:

- Prepare synopsis on chosen topic
- Do detailed literature search
- Use relevant software for editing and presentation
- Make effective graphical presentations
- Prepare dissertation for communicating research findings
- Prepare manuscript for submission to a journal
- Make oral communication of scientific knowledge

Study outcome:

Students will be able to write their own Synopsis, dissertation and paper to the Journal

Unit -1: Writing for Synopsis

[30 Hrs]

Pedagogi: (Talk with PPT; students will be made to write their synopsis as when a step is taught. All sessions will be in Computer lab)

- i. Research Process – An Overview
- ii. Introduction – Title, Abstract
- iii. Literature review – Types: Review of scriptures and Modern scientific literature, why literature review, how to conduct literature review, use of Pub Med, and other online sources, presentation of literature review.
- iv. Aims and Objectives – Statements of aims and objectives, research questions, hypothesis, null hypothesis, rationale of study, operational definition.
- v. Methods – Participants, Inclusion & Exclusion criteria, Design, Intervention, Assessment tools, independent & dependent variables,
- vi. Ethics of research – Laboratory ethics, Publication ethics, Ethical bodies – IEC & IRB, Guidelines for good clinical practices
- vii. Plan of data extraction and Tabulation (Demo Table)
- viii. Plan for Statistical Analysis
- ix. Use of Mendeley reference manager
- x. Use of ITRANS 99
- xi. Use of G*Power

Unit -2: Writing for Dissertation

[10 hours]

Pedagogi: (Talk with PPT; All sessions will be in Computer lab. Model research problem should be given and every student should write a rough dissertation)

Dissertation preparation Format, Introduction, Literature Review (Scriptural and Scientific), Aims & Objectives, Methods, Results and Discussion, Conclusion, Appraisal, References, Appendix, Text/legend, Tables and picture formatting

Unit -3: Writing for Journal

[10 hours]

Pedagogi: (Talk with PPT; All sessions will be in Computer lab. Students should be made familiarized with different models of different journal)

Manuscript preparation, Structure of article, APA style of referencing, Plagiarism, Journal selection, Article submission, Article review

Unit -4: Presentation Skills

[10 hours]

Pedagogi: (Talk with PPT; All sessions will be in Computer lab; All students will immediately practice as all sessions will be in lab)

- i. MS Word, Excel, Power point
- ii. Presentation of research article
- iii. Presentation of synopsis
- iv. Oral and poster presentations

Recommended texts:

1. American Psychological Association. Publication Manual of the American Psychological Association (6th edition), Washington

M.Sc SYLLABUS**Subject:** Advanced Yoga Techniques -1**Course Code:** MSPDE-204

Credit 2	Total number of teaching hours: 60	Full marks for Examination: 100	Internal 50
Number of hours/Week : 4			
Unit – 1 3Hrs 10Marks	Unit – 2 19Hrs 30Marks	Unit – 3 19Hrs 30Marks	Unit – 4 19Hrs 30Marks

Goal and Objectives**Goal:**

The goal of teaching Yoga Therapy techniques to postgraduate students is to provide them with practical knowledge about advanced meditation techniques and concept of Panchakosa.

Objectives**Knowledge:**

After the completion of this course, the student shall be able to:

- Understand about the foundation of advanced meditation techniques
- Understand the role of Prana and Mind on the body and correcting and strengthening body, Prana and Mind.
- Understand and feel the connectivity of individual and the Universe.
- Experience silence, expansion and power of Sankalpa

Skills:

After the completion of the course, the student shall be able to:

- Enhance the growth of personality as an Integrated personality
- Present a technique effectively based on the condition of a patient
- Explain the significance of advanced technique for a particular condition
- Learn the skill of delivering instructions

1hr/wk theory and 5hr/wk practical(1Credit Theory and 3 credits Practical)
Theory 25 and Practical 75 Marks

M.Sc SYLLABUS

Unit-1: Introduction to advanced techniques

Subject Code: MSFAECC-205

Credit: 2	Total number of teaching hours: 60	Full marks for examination: 100	Internal: NA
No of hours/week: NA			

Goal and objectives

M.Sc SYLLABUS

Goal:

The primary goal of synopsis writing for post graduate students is to expose them in research and motivate them to conduct scientific research and pursue higher research.

Objectives

Knowledge:

The students will

- Get to know about the style of synopsis writing
- Understand various scientific experiments design, sampling techniques etc.
- Get to know about how to Analyze data using various statistical tests
- Understand various problems experienced by a researcher while undertaking a project

Skills:

The students will be able to

- Interpret the data and draw a conclusion from it
- Develop the skill of writing and communicating to scientific world
- Establish the underlying mechanism of the findings
- Disseminate research findings

Study Outcome:

Students will prepare their Synopsis and also prepare a PPT and present it.

Note: Please note that during this time each student is expected to write the synopsis under the supervision of a qualified guide and get ready for presentation. It is mandatory for all candidates to present their plan of research work in the presence of internal experts and guide.

Details about the format of Synopsis is enclosed in Enclosures.

Goal and Objectives

Goal:

The goal of teaching Yoga Therapy techniques to postgraduate students is to provide them with practical knowledge of Clinical training at Yoga therapy hospital so as to elevate the level of practical knowledge in students

Objectives

Knowledge:

After the completion of this course, the student shall be able to:

- Learn the line of treatment of a particular disease
- Understand the condition of a disease and prepare a module based on its severity
- Have in depth understanding about participant's care, data analysis and report writing

Skills:

After the completion of the course, the student shall be able to:

- Write the case history of a patient
- Administer general parameter and clinical assessment methods used for various group of patients
- Give effective counseling to a patient for eliminating the root cause of a problem
- Avoid a practice based on the severity of a disease and its contraindication

Study Outcome:

Students will get practical experience of teaching Yoga practices for various diseases.

Unit-1: Brief outline of yoga therapy clinical training

[5Hrs]

Pedagogi: (Talk with PPT)

- i. Case History Writing
- ii. Introduction to general parameter
- iii. Introduction to special parameter

M.Sc SYLLABUS

- iv. Education of Participant Care
- v. Psychological analysis by Triguëa and Tridoça, GHQ questionnaires.
(Analysis of Prakâti and Vikâati of participants)
- vi. Data Entry and Data Analysis
- vii. Report Writing
- viii. Case Presentation

Unit-2: Neurology and Oncology [55hrs]

Pedagogi: (Observing the Senior therapist and slowly pick up skills to teach patients; Students will be encouraged to take class for therapy participans)

- i. Introduction to Section: Neurology and Oncology
- ii. Introduction to Aliments: Stroke, Parkinson, Motor Neuron Disease, Epilepsy, Multiple Sclerosis, Cerebral Ataxia, Breast Cancer, Brain Tumor, Stomach Cancer: Definition, Prevalence, Cause, Sign, Symptoms, Clinical Parameter
- iii. Yogic Management through IAYT
- iv. Customized and Specific Yoga Module protocol for above mentioned Aliments
- v. Yogic Counseling

Unit-3: Pulmonology [30Hrs]

Pedagogi: (Observing the Senior therapist and slowly pick up skills to teach patients; Students will be encouraged to take class for therapy participans)

- i. Introduction to Section: Pulmonology.
- ii. Introduction to Aliments: Asthma, Nasal Allergy, Sinusitis, TB, COPD
- iii. Yogic Management through IAYT
- iv. Customized and Specific Yoga Module protocol for above mentioned Aliments
- v. Yogic Counseling

Unit-4: Cardiology [30Hrs]

(Pedagogi: Observing the Senior therapist and slowly pick up skills to teach patients; Students will be encouraged to take class for therapy participans)

- i. Introduction to Section: Cardiology
- ii. Introduction to Aliments: Hypertension, CHD, Low BP, High BP, MI, Atherosclerosis.
- iii. Yogic Management through IAYT
- iv. Customized and Specific Yoga Module protocol for above mentioned Aliments
- v. Yogic Counseling

Recommended Books:

1. Clinical methods-Hutchison
2. Clinical methods- CL Ghai

Subject: Biostatistical Analysis

Subject code: MSFDE-305

M.Sc SYLLABUS

Credit: 2	Total number of teaching hours: 60	Full marks for examination: 100	Internal: 50
No of hours/week: 4			
Examination weightage:			
Unit-1 10Hrs 20Marks	Unit-2 15Hrs 25Marks	Unit-3 15Hrs 25Marks	Unit-4 20Hrs 30Marks

Goal and objectives

Goal:

The primary goal of Biostatistical analysis is to train the students with practical tools employed in research and enable them to write their dissertation and journal article in standard scientific writing standards.

Objectives

Knowledge:

The students will learn to

- Handle R statistical package for analysis
- Organize and communicate scientific information
- Use supporting software like Mendeley reference manager, ITRANS 99, G*Power, and other important office applications.

Skills:

Successfully completing the course, the students will acquire

- Practical skill to do detailed statistical analysis
- Practical skill to review statistical results in journals
- Skill to write report of analysis
- Practical skill to present dissertation
- Skill for scientific communication

Study Outcome:

After undergoing this course, a student will be having a practical knowledge of

- preparing and presenting a synopsis
- using statistical software R for analysis
- interpreting and presenting the analyzed results
- Mendeley software for reference management
- ITRANS software for typing devanagari script
- G*Power software for power analysis

Unit-1: Introduction to Statistical Analysis

[10Hrs]

M.Sc SYLLABUS

Pedagogi: (Talk with PPT ; Students will be made to do the calculations for their research data)

Introduction to data analysis, framing steps for data analysis, data extraction and cleaning, structure of data, Introduction to R software and packages, Downloading and installing R, R Studio, and R packages, Data management and Basis operations in R, Scripts in R.

Unit-2:Exploratory Analyses [15 Hrs]

Pedagogi: (Talk with PPT ; Students will be made to analyse their research data)

Missing value analysis
Outlier analysis
Descriptive statistics
Reverse scoring questionnaire data
Simple and interactive graphs for analysis

Unit-3: Confirmatory Analyses [15Hrs]

Pedagogi: (Talk with PPT ; Students will be made to do the calculations for their research data)

- i. Tests for Assumptions: Normality, Equivalence of Variance, and Independence
- ii. Running parametric and non-parametric statistical tests using R: correlation, t-test, chi-square tests, ANOVA, post-hoc power analysis
- iii. Graphical presentation of data – Bar graph, Pie chart, line diagram, scatter plot

Unit-4: Understanding and Writing Reports [20Hours]

Pedagogi: (Talk with PPT ; Students will be made to do the calculations for their research data. Students dissertation writing and presentation has to go hand in hand with this)

Understanding reports of published literature:

- i. Understanding reporting of correlation, chi-square, t-tests, and ANOVA.
- ii. Understanding effects of interactions – 1-way, 2-way interactions.
- iii. Understanding graphical representations of results – graphs and tables.

Writing reports for various statistical tests:

- iv. correlation, chi-square, t-tests, and ANOVA.
- v. Using APA style for reporting test statistics
- vi. Using R to generate APA style tables.

M.Sc SYLLABUS

Subject: Dissertation

Subject Code: MSF-306

Credit: 4	Total number of teaching hours: 120	Full marks for examination: 100	Internal: NA
No of hours/week: 8Hrs			

Goal and objectives

Goal:

The primary goal of dissertation writing for post graduate students is to expose them in research and motivate them to conduct scientific research and pursue higher research.

Objectives

Knowledge:

The students will

- Get to know about the style of dissertation writing
- Understand various scientific experiments design, sampling techniques etc.
- Analyze data using various statistical tests
- Understand various problems experienced by a researcher while undertaking a project

Skills:

The students will be able to

- Interpret the data and draw a conclusion from it
- Develop the skill of writing and communicating to scientific world
- Establish the underlying mechanism of the findings
- Disseminate research findings

Study Outcome:

During this time students will write their dissertation and the paper for journal.

Note: Please note that during this time each student is expected to write the dissertation under the supervision of a qualified guide and get ready for presentation. It is mandatory for all candidates to present their research work in the presence of an external expert. Details about the format of dissertation is enclosed in Enclosure-1.

Subject: Patañjali Yoga Sutrās

Subject code: MSTIE -401

Credit : 3	Total no. of teaching hrs : 45	Full marks for Examination : 100	Internal : 50
Hours per week : 3			
Examination Weightage:100			
Unit1:15Hrs 30Marks	Unit2:15Hrs 30Marks	Unit3: 5Hrs 15 Marks	Unit4:10Hrs 25 Marks

Goal and Objectives

Goal:

The goal of teaching Patañjali Yoga Sutrās and Çàðdarñanas to postgraduate students is to provide them with knowledge of Patañjali's contribution to the field of Yoga and six systems of philosophy.

Objectives

Knowledge:

After the completion of this course, the students shall be able to:

- Understand human's psychology as Patañjali had explained
- Imbibe knowledge on the insights available in six systems of philosophy
- Well verse with the yogic principles and its meaning mentioned in Patañjali Yoga Sutra
- Learn effective way of communication in Saṅskātam

Skills:

After the completion of the course, the student shall be able to:

- Explain the concept and insight quoted in the form of sūtrās
- Illustrate the yogic insight's in six systems of philosophy
- Differentiate Antarañga Yoga and Bahirañga Yoga of Aññāñga Yoga
- Explain how Patañjali Yoga sūtrās is different from other yogic texts.

Study Outcome:

Students know the Patanjali Yoga sutras in detail. The goal of teaching Patanjali Yoga Sutras is to provide them with knowledge of basic psychological aspects of Patanjali's contribution to the field of Yoga. After the completion of this course, the students shall be able to understand human's psychology as Patanjali had explained. Raja Yoga is the path of will. Mastery on oneself is the key aspect of Raja Yoga through Abhyasa (practice) and Vairagya (mastery over all types of desires). Eight limbs of Raja Yoga facilitate any seeker to reach the goal; Yama (social conduct), Niyama (individual discipline), Asanas (Yoga postures), Pranayama (regulating the breath), Pratyahara (restraining senses from respective objects), Dharana (focusing mind towards one object), Dhyana (expanding and defocusing) and Samadhi (merging with the object). These steps bring out extraordinary abilities of human

M.Sc SYLLABUS

inner potentials called Siddhis. Patanjali, the promotor of Yoga systematised in four chapters in 196 aphorisms.

Unit-1: SamādhiPāda

[15Hours]

Pedagogi: (Talk with PPT; Sloka chanting Lead and follow twice; students will be encouraged to biheart the slokas and also draw pictures for meaning of slokas; also will be encouraged to practice what is given)

- i. What is Yoga? (2)
- ii. Culmination of Yoga (3)
- iii. *Vātti* and its classifications (5-11)
- iv. Necessity of Abhyāsa&Vairāgya (12)
- v. Foundation of Abhyāsa (13-14)
- vi. Lower & higher form of Vairagya(15-16)
- vii. Definition of Samprajīaand Asamprajīa Samādhi (17-20)
- viii. Definition & attribute of Içvara (24-25)
- ix. Praëava and Sādhana for Içvara (27-28)
- x. Result of Sādhana (29)
- xi. Obstacles in the path of Yoga(30-31)

Unit-2:Sādhana pāda

[15Hours]

Pedagogy-Talk with PPT; Sloka chanting Lead and follow twice; students will be encouraged to biheart the slokas and also draw pictures for meaning of slokas; also will be encouraged to practice what is given.

- i. Discipline for Sādhana (1-2)
- ii. Kleñās – Avidya, Asmita, Rāga, Dveçā and Abhiniveçā (3-9)
- iii. Modification of the Kleñās
 - a. Meditation (10-11)
- iv. Karmāçaya and its fruits (12-14)
- v. Pleasure and Pains are both painful (15-17)
- vi. Four stages of Guëäs (19)
- vii. Puruñā and Prakāti(20-24)
- viii. Definition of Hāna (25-26) - Stages of enlightenment (27)
- ix. Necessity of YogaPractice (28)
- x. Bahiraiga Yoga (29-55)

Unit-3:Vibhūti

[5Hours]

Pedagogy-Talk with PPT; Sloka chanting Lead and follow twice; students will be encouraged to biheart the slokas and also draw pictures for meaning of slokas; also will be encouraged to practice what is given. Will be clearly explained how vibhūtis should be used only for benefit of the society and self growth and not get lured.

- i. Antaraiga Yoga(1-3)kaivalya siddhis
- ii. Saàyamaand its results, applications (5-6)
- iii. Pariëāma(9-13) –Siddhis(16-49)
- iv. Attainment of Kaivalya (56)
- v. Sources of Siddhis (1)
- vi. Influence of Karma (7)

Unit -4: Kaivalya

[10Hours]

Pedagogy-Talk with PPT; Sloka chanting Lead and follow twice; students will be encouraged to remember the slokas and also draw pictures for meaning of slokas; also will be encouraged to practice what is given.

- i. Manifestation, Source and disappearance of Vāsanās (8-11)
- ii. Theory of perception (15)
- iii. Mind and its manifestation (16-23)
- iv. Heading to Kaivalya (27-34)

Recommended books:

1. Science of Yoga- Taimini
2. Four Chapters on Freedom – Sw. Satyananda Saraswati

Subject name: Fundamentals of Integrative medicine

Subject code: MSTIE -402

Credit : 3	Total Number of teaching Hours: 45	Full Marks for Examination: 100	Internal: 50
Hours per week : 3			
Examination Weightage:100			
Unit- 1 11Hrs 25Marks	Unit- 2 11Hrs 25Marks	Unit- 3 11Hrs 25 Marks	Unit- 4 12Hrs 25 Marks

Goal and Objectives

Goal:

The goal of teaching Yoga and rehabilitation subject to postgraduate students is to provide them with knowledge about the principles of Integrative medicine such as Ayurveda and Naturopathy that are compatible to Yoga therapy.

Objectives

Knowledge:

The student shall be able to:

- Understand the science of Ayurveda
- Get comprehensive knowledge about ancient wisdom.
- Get knowledge about fundamentals of Ayurveda
- Learn the concept of auto healing and principles of Naturopathy
- Imbibe the ancient knowledge of Naturopathy based on the concept of Panchamahabhuta

Skills:

After the completion of the course, the students shall be able to:

- Integrate Ayurveda with Yoga for the better and quick recovery of a disease.
- Integrate Naturopathy with Yoga for recovering from a disease sooner.
- Understand and prescribe the line of treatments employed for relieving the common disease conditions.
- Explain the principles behind the treatment of Ayurveda and Naturopathy

Study Outcome:

The study of basics of AYUSH system in the MSc curriculum aims in making the best yoga therapists with the confidence in the application of preventive and curative power of Yoga Therapy. By making use of non-invasive, lesser/ nil side effects, well prognosis and most economical treatments of AYUSH compared with the surgical and drug therapy approaches which is inappropriate in many of the NCDs.

Unit – 1:

Pedagogy -Talk with PPT.

(A)Definition of Ayurveda [6Hours]

- i. Definition of Vedas – Introduction of division of Vedas.
- ii. Definition of Ayurveda – Different types of Ayu and chronology of Ayurveda.

(B)Concept of Doshas, Dhatus, Malas and Agni [6Hours]

- i. Concept of doshas – Vata, Pitta and Kapha
- ii. Concept of dhatus and malas
- iii. Concept of agni – Types of agni and concept of Ama.

Unit-2:

Pedagogy -Talk with PPT

(A)Concept of Chikitsa [6Hours]

- i. Shishyaguna – Concept of Chikitsachatushpada,
- ii. Qualities of royal physician.
- iii. Dinacharya, rutucharya and rutilusandhi- features and significance.

(B)Concept of health and disease [6Hours]

- i. Concept of health according to sushruta.
- ii. Concept of disease and its classification.
- iii. Concept of agryasangrahas

(C)Concept of drugs in Ayurveda and its formulation [6Hours]

- i. Concept of drugs in ayurveda, different types of formulations and concept of treatments
- ii. in ayurveda.
- iii. Panchakarma and its procedures.

Unit – 3:

Pedagogy-Talk with PPT. Students will be taken to treatment centre and made to observe and practice the techniques.

(A)Basis of Naturopathy [5Hours]

- i. Definition of Nature Cure
- ii. History of Naturopathy
- iii. Principles of Naturopathy

(B)Diet and Fasting [5Hours]

- i. Basis of Diet and its type
- ii. Fasting Therapy
- iii. Type of Fasting
- iv. Importance of Fasting
- v. Precaution to be taken

M.Sc SYLLABUS

- vi. Indications
- vii. Contraindications

(C)Hydrotherapy and Mud Therapy [5Hours]

- i. Definition Mud Therapy
- ii. Types of Mud
- iii. Preparation and Method of Application
- iv. Benefits
- v. Indication and Contraindication
- vi. Introduction to Hydrotherapy
- vii. Physiological and Therapeutic Properties
- viii. Hydrotherapy Interventions: Hip Bath, Steam Bath, Enema, Packs, Compress, Fomentation.

Unit-4:

Pedagogy-Talk with PPT. Students will be taken to treatment centre and made to observe and practice the techniques.

(A)Manipulative Therapy [5Hours]

- i. Introduction to Manipulative Therapy
- ii. Types of movement
- iii. Benefits
- iv. Indication and Contraindication

(B)Chromo and Magneto Therapy [5Hours]

- i. Introduction to Chromo therapy
- ii. Physiological and Psychological Effect of Color
- iii. Introduction to magneto therapy
- iv. Physiological and Psychological Effect of magnet

(C)Aroma Therapy and Acupressure [5Hours]

- i. Introduction to Aromatherapy
- ii. Modes of Application
- iii. Indication and Contraindication
- iv. Basis of acupressure and reflexology

Recommended books:

1. Introduction to Ayurveda and Yoga by David Frawley.
2. AshtangaSangraha by Vagbhata.
3. Principles of Naturopathy- Dr. Bhakru

Subject: Hatha Yoga Pradipika (DE)**Subject code:** MSTDE-403

Credit : 4	Total no. of teaching hrs : 60	Full marks for Examination : 100	Internal : 50
Hours per week : 4			
Examination Weightage:			
Unit1: 15Hrs 25Marks	Unit2: 15Hrs 25Marks	Unit3: 15Hrs 25Marks	Unit4: 15Hrs 25Marks

Goal and Objectives**Goal:**

The goal of teaching Hatha yoga text subject to postgraduate students is to provide them with knowledge of the Yogic practices quoted in Hatha Yoga texts and their values and benefits for human being.

Objectives**Knowledge:**

The student shall be able to:

- Learn the misconceptions about Yoga practices
- About Nath sects and their contributions
- Code of conduct and other related benefits
- Practices and their details mentioned

Skills:

After the completion of the course, the students shall be able to:

- Explain about the practices in details
- Appreciate the real values of Yogic practices as mentioned in Hatha Yoga texts
- Indicate and contraindicate the practices
- Explain the food conducive to health and good for Sadhana

Unit-1: Hatha Yoga its Philosophy and Practices**[5Hours]****Pedagogy -Talk with PPT.**

- i. Hatha Yoga, its meaning, definition, aims & objectives, misconceptions, obstacles (vighna) and helps (sahāyaka) in Haöha Yoga as in Hatha Yoga Pradépikā.
- ii. The Origin of Hatha Yoga, Hatha Yogic Literature, Hatha Yogic Practices as explained in Hatha Yoga Pradépika (HYP).

M.Sc SYLLABUS

- iii. Concept of Mata, Rules & Regulations to be followed by the Hatha Yoga Practitioner, concept of Mitāhāra, Pathya and Apathya.
- iv. Hatha Yogic Paramparā. Brief introduction to Great Hatha Yogés of Nātha Cult and their contributions to Yoga. Relationship between Hatha Yoga & Rāja Yoga.

Unit-2: Hatha Yoga Practices: Shodhana-Kriyās and Āsanas [7Hours]

Pedagogy-Talk with PPT; slokas lead and follow twice; practice and experience every technique as and when learnt.

- i. Shodhana-kriyās, Shodhana-kriyās in Hatha Yoga Pradépikā & in GherandaSamhitā and their techniques, benefits and precautions.
- ii. Role of Shodhana-kriyās in Yoga Sādhanā and their importance in Modern day life.
- iii. Yogāsana: its definition, salient features and importance in Haöha Yoga Sādhanā.
- iv. Āsanas in Hatha Yoga Pradépikā and GherandaSamhitā: their techniques, benefits, precautions and importance.

Unit-3: Hatha Yogic Practices: Prānāyāma, Bandhas and Mudrās [10Hours]

Pedagogy- Talk with PPT; slokas lead and follow twice; Biheart slokas; practice and experience every technique as and when learnt.

- i. Prānāyāma– Mechanism of correct breathing, Yogic deep breathing, Concept of Püraka, Kumbhaka and Recaka.
- ii. The concept of Prāna, Kinds of Prana and Upa-prānas, Prānāyāma and its importance in Hatha Yoga Sādhanā, Nādi shodhana Prānāyama, its technique and importance, Pre-requisites of Prānāyāma.
- iii. Prānāyāma practices in Hatha Yoga pradépikā and Gheranda Samhitā, their techniques, benefits and precautions, Hatha Siddhi Lakñanam.
- iv. Bandhas and role of Bandhatrayas in Yoga Sādhanā.
- v. Fundamental Mudrās in HYP. and G.S, their techniques, benefits and precautions.

Unit-4: Hathayoga Practices: Pratyāhāra, Nādānusandhāna [8Hours]

Pedagogy- Talk with PPT; slokas lead and follow twice; Biheart slokas; practice and experience every technique as and when learnt.

- i. Concept of Pratyāhāra, Dhāraëā and Dhyāna in GheraëöaSamhitā and their techniques & benefits.
- ii. Concept of Samādhi in HaöhayogaPradépikā, Samādhi Lakñäëam and Haöha Yoga Siddhi Lakñäëam.
- iii. The concept of Nāda, Four Avasthās (stages) of Nādānusandhāna, and its Siddhis.
- iv. Svara, Importance of Svarodaya-jñāna in Yoga Sādhanā with special reference to JñānaSvarodaya and ÇivaSvarodaya.

Recommended books:

Goal and Objectives

Goal:

The goal of teaching Yoga Therapy techniques to postgraduate students is to provide them with practical knowledge about advanced meditation techniques and concept of Panchakosa.

Objectives

Knowledge:

After the completion of this course, the student shall be able to:

- i. About Foundation of Advance Meditation Techniques
- ii. Aim of Advanced Meditation Techniques and Concept of Panchakosa
- iii. Understanding the role of Prana and Mind on the body and correcting and strengthening body, Prana and Mind.
- iv. Self personality enhancement to grow as a Integrated personality
- v. Understand and feel the connectivity of individual and the Universe.
- vi. Experience silence
- vii. Experience Expansion
- viii. Experience the power of Sankalpa and enhance positive thinking.
- ix. To understand and experience: About Foundation of Advance Meditation Techniques.
- x. Go Deeper And Deeper Levels Of Silence.

Skills:

After the completion of the course, the student shall be able to:

- Enhance the growth of personality as an Integrated personality
- Present a technique effectively based on the condition of a patient

M.Sc SYLLABUS

- Explain the significance of advanced technique for a particular condition
- Learn the skill of delivering instructions

Study Outcome:

Strengthening of Manomaya, Vijnanamaya, Anandamaya Kosas. Also students learn to give these techniques to participants on requirement.

Unit – 1: Introduction to advanced techniques:

[3Hours]

Pedagogy -Talk with PPT.

- i. Meditation.
- ii. Advancement in Meditation.
- iii. Concept of Païca Koça.
- iv. Advanced techniques.
- v. Personality development.
- vi. Concept of Vyaçõi and Samaçõi.
- vii. Relaxation, awareness and expansion of awareness.
- viii. Role of mind, intellect etc.,
- ix. Different Layers of Silence.
- x. Methods to go to deeper levels of silence.

Unit - 2: Mind Imagery Technique

[14Hours]

Pedagogy - Mind mapping; Talk with PPT; Practicing with computerized pictures; Practice with instructions; experience and understand.

Ref: Page No: 153 of Yoga for Cancer by Dr Nagaratna R and Dr Nagendra H R

- i. Introduction to the technique
- ii. Where does this work?
- iii. How to reach deeper layers of silence?
- iv. How Focusing followed by defocusing helps to go deeper?
- v. Observation of Neutral and Active imageries or thoughts.
- vi. Observing OM/God/Sun/Yantra in increasing and decreasing size.
- vii. Visualizing OM/God/Sun/Yantra in increasing and Decreasing Size.
- viii. Observing OM/God/Sun/Yantra flickering with uniform speed.
- ix. Observing OM/ God/ Sun/ Yantra flickering with increasing and decreasing speed.
- x. Observing powerful rays burning unwanted cells.
- xi. Visualizing powerful rays burning unwanted cells.
- xii. Observing soothing rays energizing all cells.
- xiii. Visualizing soothing rays energizing all cells.
- xiv. Full Practice.
- xv. Practice given by the students.

Unit - 3: Mastering Emotions Technique:

[14Hours]

Pedagogy - Mind mapping; Talk with PPT; Practice with instructions; experience and understand.

Ref: Page No: 169 of Yoga For Cancer by Dr Nagaratna R and Dr Nagendra H R

M.Sc SYLLABUS

- i. Thinking and feeling of emotion.
- ii. Types of emotions as softer, stronger, positive and negative.
- iii. Invoking, intensifying and diffusing the emotions
- iv. Pairs of opposites at the physical and emotional levels.
- v. Silence and Sankalpa.
- vi. Full practice.
- vii. Practice given by the students.

Unit - 4: Vijāna Sādhana Kauçala:

[14Hours]

Pedagogy-Talk with PPT; Practice with instructions; experience and understand. Happiness analysis to be experimented by students.

Ref: Page No: 188 of Yoga for Cancer by Dr Nagarathna R and Dr Nagendra H R

- i. Explaining about Vijānamaya Koça.
- ii. Happiness analysis.
- iii. Fear analysis.
- iv. Tamas, Rajas, Sattwa, and Gunātita.
- v. Çreyas and Preyas.
- vi. Recollect the incidences of highest happiness and also incidences of highest fear.
- vii. Analyse each incident of happiness and fear analysis and write.
- viii. List Çreyas activities and Preyas activities in your present life.
- ix. Practice to move from Çreyas to Preyas.
- x. List of Tāmasic, Rājasic and Sātvic activities.
- xi. Practice to move from Tamas to Rajas to Sattva to Gunātita.
- xii. Full practice.
- xiii. Practice given by the students.

Unit- 5: Ānanda Amrita Sinchana:

[14Hours]

Pedagogy - Talk with PPT; Practice with instructions; Observe the mind.

Ref: Page No: 202 of Yoga for Cancer by Dr Nagarathna R and Dr Nagendra H R

- i. Importance of pairs of opposites.
- ii. List different pairs of opposites that occur in life.
- iii. Practice to experience them as pairs and observe the changes in the personality.
- iv. List out incidences when bliss is experienced in activity.
- v. List out incidences when bliss is experienced in non-activity.
- vi. List of varieties of people, varieties of places, varieties of incidences and practice to maintain the bliss in all circumstances.
- vii. Carefully observe and start to do every activity with bliss.
- viii. Allow love and bliss to spread all around.
- ix. Full practice.
- x. Practice given by students.
- xi. Experience writing.
